## APPLICATION INSTRUCTIONS:

**SURFACE PREPARATION:** Remove all contaminants by means of Degreasing & Then Acid Etching or Mechanically Grinding to a grit of your choice.

**PRODUCT MIXING:** Shake 1 Gallon Container Well

**COVERAGE RATE:** 250 to 300 SF<sup>2</sup> per Gallon

**PRODUCT APPLICATION:** Apply using a plastic pump sprayer with a circular motion. Apply thin coats and do not puddle. 1 to 2 coats.

Personal Protection Equipment: Gloves, Goggles, and Respirators.

**PLEASE NOTE:** It is always recommended to test the product in a small, inconspicuous area (on the same concrete substrate) for desired results prior to application. Coverage rates may vary for all coatings and substrates depending on porosity, density, texture etc.

**CLEANUP:** Use soap & water. Dispose of containers in accordance to local, state, and federal regulations.

**PRODUCT REMOVAL:** Material is a concrete dye and cannot be chemically stripped. A commercial sand blaster, floor sander, diamond grinder, or other similar mechanical machine is necessary, but not guaranteed to get all the color out.

**SHELF LIFE:** Up to one year from manufacture date in its original unopened container stored at room temperature.

**PACKAGING:** Available in 1 gallon containers, Shake Well

*Always read all technical information, label, prior to use. This information can be found online or by calling our customer service number below.*

### Precautions & Limitations

- **This product will freeze during storage and allow temperature to rise to 50° prior to application.**
- **It is not recommended to apply this product over carpet, tile, or other types of adhesives.**
- **This product performs best when applied as one or two medium-light coats, not one heavy coat.**
- **Please be aware that this product when cured may be slippery when wet. An anti-slip additive, such as Epoxy Nation's Grip, can be added to reduce slip hazards.**
- **Always follow the instructions for the chosen topcoat application.**
